Profile

I am a programming enthusiast who specialize in Machine Learning, Data Mining and Java programming. I love challenges in life and is always eager to learn about new technologies and software.

Education

Birla Institute of Science and technology, Pilani- Computer science 2017.

CBSE class 12 Mahaveer Public School - 88.6 %

CBSE class 10 Mahaveer Public School - 9.6 CGPA

Skills

Languages: Java, C++, Sql, Python, JavaScript.

Frameworks/Libraries: Ember, Angular, Scikit learn, TensorFlow, Apache Spark.

Tools: Git,Maven, Eclipse, Sublime Text etc.

Have experience in Design patterns, Object Oriented Design, hibernate and testing pyramid.

Projects

- Automatic Clothing Recognition module from image of person.
(Presented in Annual technical fest Apogee of Bits Pilani-2016)
- Boston House prices prediction using data of 1976 by machine learning.
- Social network Analysis using Graphs in Java.
- Single Sign On web application in java using LDAP call to the Active Directory.

Awards and Achievements

- Winner of Apogee Innovation Challenge 2016 Bits Pilani technical fest.
- Runner up at Microsoft code fun do 2016.

Courses Completed

Data mining, Machine learning, Operating Systems, Data structures and Algorithms, Object Oriented Programming, Symbolic logic etc.

Extra-curricular Activities

Swimmer, Badminton player and likes to play FIFA and other online games.
